## PROFESSIONAL SUMMARY

---

Technically driven Full-Stack Web Developer with practical experience designing and implementing scalable, high-performance web applications using React.js, JavaScript (ES6+), HTML5, CSS3, and Node.js/Express for backend development. Proficient in RESTful API design, database integration (MongoDB), authentication, component-based architecture, state management, and responsive UI engineering. Skilled in Git/GitHub workflows, code optimization, cross-browser compatibility, and performance debugging. Highly adaptable, committed to clean code practices, and continuously advancing technical depth across modern web technologies, backend systems, and cloud-based development workflows.

## EDUCATION

---

Federal University of Technology, Minna

2021 - Present

Physics

## WORK EXPERIENCES

---

### Junior Web Developer | IIIRG | 2021 - 2023

- Contributed to multiple internal web development projects, improving functionality and user experience.
- Assisted in debugging and optimizing code, reducing page load times and resolving critical issues.

### **Inter Web Developer | CodeSoft | 2024**

- Developed three real-world projects from concept to deployment, gaining hands-on experience with modern web technologies.
- Designed and implemented responsive, user-friendly interfaces, enhancing usability for end-users.
- Collaborated with developers to optimize performance, resulting in faster load times and cleaner code architecture.

### **Web Development Tutor | IIRG | 2025 - 2025**

- Delivered interactive lessons on HTML, CSS, and JavaScript to beginners, improving student comprehension and engagement.
- Mentored students through practical exercises, enabling them to build functional web pages independently.

### **Software Developer Trainee | PLP Cohort 4 | 2025 march - june**

- Developed front-end components for team-based projects, implementing responsive and scalable designs.
- Improved front-end efficiency and project quality by applying best practices and hands-on coding challenges.

## **Core Skills**

---

**Front-End:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS

**Back-End:** Node.js (Express.js), RESTful API Development

**Databases:** MongoDB, Firebase

**UI/UX & Web Design:** Responsive Design, Interactive Elements, Web Optimization

**Additional:** Web Performance Optimization, SEO Best Practices

## **Tools & Technologies**

---

- **Version Control:** Git, GitHub
- **Development Environments:** VS Code, Gitpod
- **Deployment & Hosting:** Netlify, Firebase
- **Containerization & DevOps:** Docker

## Other Competencies

---

- REST API Integration
- Responsive & Mobile-First Design
- Debugging & Browser Developer Tools

## Projects

---

- **Portfolio Website** – Built a personal portfolio showcasing projects and skills using **HTML5, CSS3, JavaScript**. Implemented responsive design and interactive UI elements.
- **Weather Dashboard** – Developed a dynamic weather application using **HTML5, CSS3, JavaScript**, fetching real-time weather data from a public API.
- **E-learning Quiz Platform** – Created a quiz platform for students using **HTML5, CSS3, JavaScript**, featuring multiple-choice questions and score tracking.
- **EasyHome Web Platform** – Ongoing full-stack project for student accommodation management. Built using **React.js, Node.js (Express), MongoDB**, allowing landlords to list properties and students to browse them.
- **Smart Farming Crop Disease Detection** – Developed a web application using **HTML, CSS, JavaScript** that identifies crop diseases by fetching results from the **Plant.ID API**.
- **FinTrack – Personal Expenses Tracker** – Built a web-based finance management system with **React.js, TailwindCSS, Node.js (Express), MongoDB**, enabling users to add, edit, and categorize expenses.

## Certificates Earned

---

- **HTML Certificate** – Simplilearn
- **CSS Certificate** – Udemy
- **Introduction to Web Development Internship** – IIIRG
- **Front-end Web Development Internship** – CodeSoft
- **JavaScript Completion** – ChatGPT Learning Platform
- **Introduction to Artificial Intelligence** – Google AI Essentials
- **Bootstrap Completion** – ChatGPT Learning Platform

## **Statement of Participant**

---

- An introduction to software development – Open Learning University
- Simple Coding – Open Learning University

## **REFEREE**

---

**Mr. Aderemi Maruf Adekola**

[Journalist: ACHIEVERS MAGAZINE]

**Address:** Olomi, Ibadan, Oyo State.

**Tel:** 07059516072

**Relationship:** Relative

**Mr. Bello Abeeb Akorede**

[AI Robotics and Embedded System Engineer: Harvested Robotics]

**Address:** Oba Ado area Ayegun, Ibadan, Oyo State

**Tel:** 09077994397

**Relationship:** Mentor
