PROFESSIONAL SUMMARY

Full-Stack JavaScript Developer with hands-on experience building secure, scalable, and responsive web applications using React.js, Node.js (Express), Supabase, Firebase, and MongoDB. Skilled in authentication systems, Role-Based Access Control (RBAC), and modern deployment workflows.

EXPERIENCE

Web Development Tutor — IIIRG

2025

- Orchestrated technical workshops for 20+ students, covering modern web standards (HTML5, CSS3, and ES6+ JavaScript).
- Mentored aspiring developers in building production-ready, mobile-first responsive applications using Flexbox and CSS Grid.
- Conducted code reviews and debugging sessions to instill best practices in clean code and modular architecture.

Software Developer Trainee — PLP Cohort 4

2025

- Engineered reusable frontend components for collaborative Full-Stack projects using React.js, improving development speed across teams.
- Integrated RESTful APIs and managed asynchronous data fetching with modern JavaScript, ensuring seamless UI/UX transitions.
- Collaborated in an Agile environment to deliver feature-rich modules, focusing on performance optimization and cross-browser compatibility.

Web Development Intern — CodeSoft

2024

- Developed and deployed dynamic web applications using React.js, focusing on state management and component-based architecture.
- Optimized website performance by refactoring legacy code, resulting in faster load times and improved Lighthouse scores.
- Implemented complex UI designs using Tailwind CSS, ensuring pixel-perfect responsiveness across all device breakpoints.

Frontend Web Developer — IIIRG

2021 – 2023

- Maintained and enhanced internal web applications, resolving critical frontend bugs and improving user navigation.
- Collaborated with the design team to implement interactive features using JavaScript, increasing user engagement by 15%.
- Assisted in the migration of static sites to dynamic frameworks, gaining foundational experience in full-cycle web development.

PROJECTS

CBT Center – Computer-Based Testing

React.js, Tailwind CSS, Supabase

 Repo

Full-Stack Application

- ✓ Developed a secure, full-stack exam platform featuring **Role-Based Access Control (RBAC)** for Admin and Student views.
- ✓ Engineered a custom timer engine with automatic exam submission and real-time score calculation upon completion.
- ✓ Integrated **Supabase Authentication** and PostgreSQL for secure data handling and protected routing.

EasyHome – Student Accommodation

React.js, Node.js, MongoDB

Repo

Full-Stack Application

- ✓ Built a property listing marketplace for landlords and students using the **MERN stack**.
- ✓ Architected **RESTful APIs** for seamless property management, user profile updates, and image uploads.
- ✓ Designed a scalable UI with reusable components, ensuring a mobile-first responsive experience.

Expenses Tracker – Finance App

React.js, Tailwind CSS, LocalStorage

Repo

Frontend Application

- ✓ Engineered a personal finance dashboard with full **CRUD functionality** for tracking daily expenditures.
- ✓ Implemented advanced category filtering and real-time data visualization of spending habits.
- ✓ Leveraged **Browser LocalStorage** for persistent data storage, ensuring user data remains available across sessions.

Crop Disease Detection System

JavaScript, Plant.ID API

Repo

API Integration

- ✓ Integrated the **Plant.ID API** to perform automated agricultural diagnostics on crop images.
- ✓ Developed logic to process complex JSON responses and dynamically render diagnostic reports and treatment advice.
- ✓ Focused on high-speed API performance and error handling for irregular image uploads.

TECHNICAL SKILLS

Frontend:

React.js, JavaScript (ES6+), Typescript, Tailwind CSS, Responsive Design

Backend:

Node.js, Express.js, RESTful APIs, RBAC

DevOps/Tools:

Git, Docker, Vercel, Netlify, Supabase, Firebase

EDUCATION

Federal University of Technology, Minna

2021 – Present

B.Tech Physics

Minna, Nigeria

PROFESSIONAL CERTIFICATIONS

- ✓ **Oracle Certified** Foundation Associate
 - ✓ **NITDA SIWES** Industrial Training
 - ✓ **PLP** Web Development Certificate
- ✓ **Aviatrix** Multicloud Networking
 - ✓ **Google** AI Essentials
 - ✓ **Udemy** Intro to DevOps

TECHNICAL TRAINING & INTERNSHIPS

CodeSoft	Front-end Web Development Internship Certificate
IIIRG	Introduction to Web Development Internship
Specializations	JavaScript, CSS, and Bootstrap (Simplilearn & Udemy)
